

HARRIS & BRUNO
GENUINE PARTS,
CONSUMABLES AND
SERVICES

OUR PRODUCTS

SPARE PARTS AND CONSUMABLES

Chamber end seals

- ❑ A variety of materials for all different applications
- ❑ Precise manufacturing (water jet)
- ❑ Best sealing results
- ❑ For H&B chambers and other manufacturers

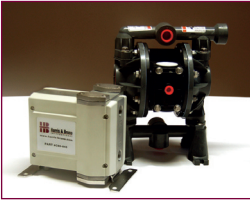

Steel doctor blades

- ❑ Precise metering
- ❑ Long lifetime
- ❑ All dimensions, shapes and variations

Plastic doctor blades

- ❑ Longest life time
- ❑ All dimensions
- ❑ Polyester containment blades
- ❑ Reduces trail doctoring

Spare ink- and coating pumps

- ❑ Saves productivity
- ❑ Maintenance exchange program
- ❑ Pump upgrades to latest technology

Harris & Bruno genuine spare parts

- ❑ Best quality
- ❑ Full warranty

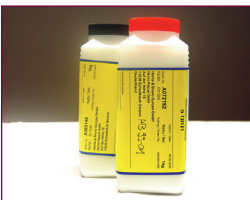

Anilox Cleaner

- ❑ Maintains anilox roller cell volume
- ❑ Extends runtime between anilox deep cleaning cycles

Seal lubricant

- ❑ Improves sealing quality
- ❑ Extends end-seal lifetime
- ❑ Impregnates the end-seal – no swelling

Anti foaming additive

- ❑ Reduces foaming of coatings, inks and cleaners

ACCESSORIES

ACCESSORIES

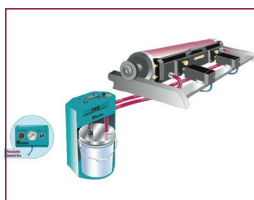

Anilox Rollers

- ❑ Ceramic anilox rollers with aluminum-, steel- or carbon fiber core
- ❑ Standard- and specialty engravings
- ❑ Anilox cleaners
- ❑ Anilox brushes

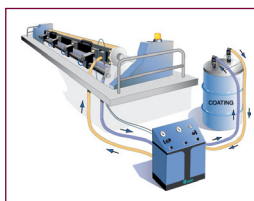

Anilox volume measurement

- ❑ Verify anilox cell volume
- ❑ Equipment sale or service

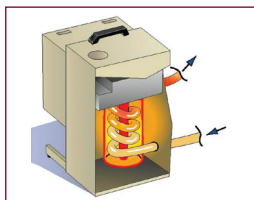

Ink- and coating pump systems

- ❑ Additionally to our fully automated pump units we offer simple units for different applications

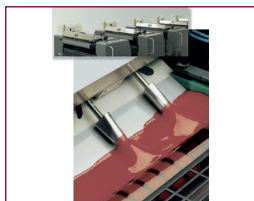

Standby- and back-up pump system

- ❑ Includes supply- and return pump
- ❑ Semi-automated cleaning function
- ❑ Pump speed regulator
- ❑ For water based and/or UV applications
- ❑ Trough level sensor

Inline heating unit

- ❑ Precise temperature control of UV coatings
- ❑ In conjunction with H&B LithoCoat™ circulators or stand alone
- ❑ Temperature sensor on anilox surface

Ink-Agitators

- ❑ Maintains ink consistency
- ❑ Eliminates ink skinning
- ❑ Custom design – also for retrofit

Set-up carts

- ❑ Streamline your setup time
- ❑ Increase productivity

Blade cutters

- ❑ Easy and precise preparation of doctor blades
- ❑ Rigid design
- ❑ Stainless steel shear
- ❑ Tape measure with adjustable stop

ACCESSORIES

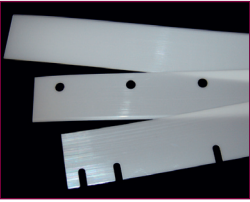

Viscosity control systems

- ❑ Online viscosity control for coatings- and inks
- ❑ Increased process control
- ❑ Constant quality

Tank mixers and agitators

- ❑ Available for different tank types and shapes
- ❑ Increased process control
- ❑ Constant quality
- ❑ Uniform distribution of coating pigments

Wash-up blades

- ❑ For different sheetfed-offset machines

SERVICES

Service- and maintenance packages

- ❑ In-house or external maintenance of H&B systems through skilled technicians
- ❑ Save productivity and observe maintenance schedules
- ❑ Double check and optimize alignments
- ❑ Function- and software updates
- ❑ Training of operators and maintenance staff
- ❑ Warranty extension

Process application consultancy / Tower coater service

- ❑ Support for specialty applications
- ❑ Implementation of new applications
- ❑ Solutions on applicational problems
- ❑ Specification / recommendation of components
- ❑ Operator training

Anilox cleaning

- ❑ Recover and maintain anilox cell volume
- ❑ Volume measurement
